A Legacy of Excellence Since 1964

The journey of “Rose Auto” began in 1964 when “Late Shri Tilak Raj Ahuja” laid the foundation of the business with the manufacturing of precision *shims* under the name “Rose Auto Industries”. Guided by a vision of quality, reliability, and customer trust, the company quickly established itself as a dependable name in the automotive components sector.

Building upon this strong foundation, the business entered a new phase of growth in “1999” under the leadership of “Ramesh Kumar Ahuja”, who expanded operations into the trading of commercial vehicle components under the name “Rose Auto”. During this period, the company introduced its flagship brand, “ROSE”, which has since become synonymous with quality, durability, and dependable performance in the truck parts industry.

Today, with over “62 years of industry experience”, Rose Auto stands as a trusted partner to the commercial vehicle sector. Our reputation has been built on “uncompromising quality, strict OEM compliance, and a reliable supply chain”, enabling us to consistently meet the evolving demands of transport operators, distributors, workshops, and fleet owners.

At Rose Auto, our mission is centered on “ensuring vehicle safety, minimizing downtime, and maximizing operational efficiency”. Every product we offer reflects our commitment to delivering dependable solutions that keep vehicles moving and businesses growing.

From its beginnings as a manufacturer to its evolution into a leading truck parts trader, Rose Auto has continuously expanded its reach and capabilities. Today, our products are supplied “across India and international markets”, serving customers who rely on our expertise, quality standards, and commitment to excellence.

As we look toward the future, we remain dedicated to preserving the values established by our founder while embracing innovation, strengthening partnerships, and setting new benchmarks in the commercial vehicle after market.

Our Heritage. Our Quality. Our Promise.

For more than six decades, the name “ROSE” has stood for:

- * Quality without compromise
- * Strict adherence to OEM standards
- * Reliable and efficient supply-chain solutions
- * Customer trust and long-term partnerships
- * Commitment to safety and performance

“ROSE AUTO”

From Manufacturing Excellence to Market Leadership Since 1964.
