What's New in 100111721 Head

Existing cylinder head assembly

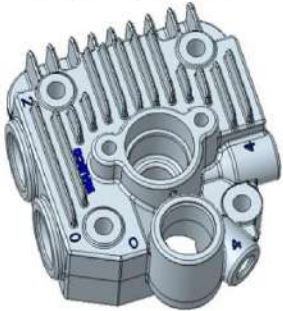

Redesigned cylinder head assembly

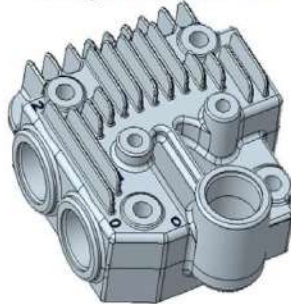

As a part of redesigning the cylinder head of compressor assembly bearing part number 100101221 has been modified by eliminating the power reduction function port from the cylinder head assembly (100111721) has been changed New/redesigned.

Existing bare cylinder head

Redesigned bare cylinder head

The bare cylinder head part number is **9129708074** existing and the redesigned bare cylinder head part number is **9129706744**. In this redesigned cylinder head the unused port was removed. Bolt length is reduced, and the plate has been eliminated.
